"The Onassis Foundation Science Lecture Series"

The Onassis Foundation Science Lecture Series is a series of lectures held in Greece, featuring prominent scientists and intellectuals from around the world. The lectures cover a wide range of topics in the fields of science and technology. The series is sponsored by the Onassis Foundation, a charitable organization founded by the late Greek shipping magnate Aristotle Onassis.

The lectures are open to the public and are held at various venues across Greece. The series is an excellent opportunity for students and researchers to engage with leading experts in their fields and gain insights into the latest developments in science and technology.
